Brant came to UBTech nearly three years ago with two decades of experience in the electrical field, to take the position as electrical apprentice instructor. Brant and his wife Jana have three children and one daughter-in-law. His passion for the outdoors and spending quality time with his loved ones is evident.

When deciding to become an electrician Brant embarked on his career path by pursuing his studies at what was then UBATC. While working for GS Electric for seven years, he fulfilled his Electrical Apprenticeship requirements and obtained his Journeyman Electrician license.

His responsibilities encompassed a diverse range of electrical duties spanning residential, commercial, and oil and gas industrial projects. Subsequently, Brant transitioned to Basin I & E for a year, focusing predominantly on electrical work within the oil and gas sector.

His career then led him to EP Energy, where he served as the in-house electrician, managing contract electricians and executing electrical maintenance on oil wells. Last year Brant attained his Master Electrician license, further solidifying his expertise in the field.
EXCEL WORKSHOPS

Beginning
Date: April 4

Intermediate
Date: March 28

Advanced
Date: April 11

Cost $95
Custom Fit Cost $57

Time: 9-4 pm
(1 hour lunch)
